

(c) Discuss the factors for creation of regional imbalances. (10)

Regional imbalances is defined as differences between the regions based on per capita, growth, development etc.

don't
anything
(space)

(Please don't
write anything
in this space)

Factors

You have excellent hold on Examples should include data as well Eg:- Literacy level of Kerala is above 90%, while Bihar is below 70% Structure of the answer is also good

Intro

FACTORS

- Geogr-
- Historical
- Social
- Economy
- Natural resources

Geographical factors Based on resources, regions development Eg:- Jharkhand Chhattisgarh Mountain regions vs plain areas. Eg:- Agricultural works flourish in plain area compared to mountain region. Eg:- J&K vs UP Rainforest vs desert areas where productivity is higher in rainforest than desert.

Govt Schemes (MISSING)

Historical

During British period, 4 regions Kolkata, Bombay, Delhi

Presentation could have been better

Conclusion and Way forward (WEAK)

Why this underlined

(Please don't write anything in this space)

Chennai flourished well. They made many developments like ports, logistics etc.

Social factors

Social factors like people's education, health, standard of living also plays a role.

eg:- Kerala good at literacy level & per-capita is higher whereas Bihar is poor at literacy rate.

Economic factors

Economic factors depends on secondary, tertiary sector services. Economic development flourished well due to setup of SEZ, IT complex.

eg:- In TN, manufacturing hub SEZ at Sripurumpudur helps TN in economic growth.

Thus Govt should take efforts to minimize imbalances among states.

u exhausted space and conclusion was not that impactful

* You have to work on underlining key words.

Some keywords are improperly marked and

Some use ambiguous

(like the ones which are encircled)

(Please write in this)

underline properly

Example is excellent but use mixture of both examples and data

stream

* Strengths

- i) use of examples
- (ii) structure of the answer

* Things to work upon

(i) Insert data

(ii) Insert government schemes, make habit of one

paragraph before conclusion should mention some
Government schemes

- North East special infra dept scheme
- Bharat Net (digital divide (urban & rural))
- e-NAM (regional imbalance in agricultural price)

(iii) Conclusion should be more impactful. ~~and~~

You can use keywords like

- New India by 2022
- Sabka saath, Sabka vikas
- "File to field"

We should implement the current initiatives with "file to field" approach with Sabka saath, Sabka vikas model to achieve New India by 2022 without any regional imbalances.
